

## THE AMERICAN INSTITUTE OF ARCHITECTS

March 27, 1970

Mr. William Vernon Reed, FAIA  
8 Mexico Street  
Hato Rey, Puerto Rico 00917

Dear Mr. Reed:

I have the pleasure of informing you that the Jury of Fellows advanced you to fellowship at its recent meeting for your notable contributions to the advancement of the profession. This action automatically admits you to membership in the College of Fellows.

Those who have been advanced to fellowship will receive their medals and certificates, with appropriate ceremony, at the Investiture of Fellows to be held Monday, June 22, 1970, at 4:30 P.M., at the Boston Fine Arts Museum, Boston, Massachusetts. Further details about this event will follow.

It is highly desirable that you come to receive this honor in person and we would appreciate it if you will send your reply to The Institute at your earliest convenience.

The Officers of The Institute and the Jury of Fellows join me in extending my congratulations and good wishes.

Sincerely,

Preston M. Bolton, FAIA

NOMINATION

1. WILLIAM VERNON REED, of the Puerto Rico Chapter, and corporate member of the AIA since December 6, 1941, is nominated for fellowship for his notable contribution to the advancement of the profession of architecture. The nomination is made by:

(check and sign either 1a. or 1b.)

1a. [X] Vote of governing Board of the Puerto Rico Chapter. Signature: Edward J. Feheley Jr., Secretary

1b. [ ] Individual corporate members and/or fellows as follows: (written signature) (typed signature and chapter)

2. The nominators designate the following member to be the sponsor of this nomination:

Name Edward J. Feheley, Jr. Address Ave. Muñoz Rivera 1103 Edif. Jefferson Telephone Number 765-8615 Standard Life Rio Piedras, P. R. 00925

THE AMERICAN INSTITUTE OF ARCHITECTS ARCHIVES For information or study purposes only. Not to be recycled, quoted, or published without written permission from the AIA Archives, 1735 New York Ave. NW, Washington, DC 20006

## PROFILE

(additional sheets to supplement the printed pages may be inserted after the appropriate printed page)

## TYPEWRITING ONLY

1. Nominee's full name: WILLIAM VERNON REED
  2. Nominee is a natural ~~naturalized~~ citizen of U.S.A.  
(name of country)
  3. Nominee's legal residence address: 1902 Calle Orquidea, Santa Maria, Rio Piedras, Puerto Rico 00927
  4. Nominee's firm name: REED.TORRES.BEAUCHAMP.MARVEL
  5. Nominee's principal place of business address: 8 Mexico Street, Hato Rey, Puerto Rico 00917
  6. Nominee is registered or licensed to practice architecture by: Board of Examiners of Engineers, Architects, and Surveyors, Commonwealth of Puerto Rico  
(name of state board, NCARB, as case may be)
  7. Nominee is registered or licensed to practice architecture in the states of: Illinois, Virginia, District of Columbia
  8. Nominee is engaged in the profession of architecture as: Senior Partner of REED.TORRES.BEAUCHAMP.MARVEL  
(current status and position)
  9. Nominee's date of birth: November 4, 1907  
Place of birth: Monticello, Illinois
  10. Nominee's education:  
(a) High School, College, University, Post Graduate, etc.  
(chronological order)
 

Location	No. of Years	Year of Graduation	Degree
High School, Monticello, Ill.	4	1925	Diploma
University of Illinois, Champaign, Ill.	5	1930	B. Arch. (Cum Laude) Awarded AIA Student Medal
  - (b) Scholarships held by nominee: (continued next page)
- See next page
11. Nominee has traveled in the following countries:  
England, France, Spain, Portugal, Holland, Belgium, Denmark, Norway, Sweden, Finland, Germany, Poland, Czechoslovakia, Austria, Italy, USSR,  
(continued next page)
  12. Other data concerning nominee's record:  
Military Service, United States Marine Corps 1942-45 (Major, USMCR)  
(continued next page)

11-1

11-9

10. Nominee's education: (continued)

- (a) Beaux Arts Institute of Design,  
New York, N. Y. 1930 Certificate
- Massachusetts Institute of  
Technology, Cambridge, Mass. 1933 M. Arch.

(b) Scholarships held by nominee:

- Allerton American Travelling Scholarship, University of Illinois 1929
- Fellowship to Lake Forest Foundation for Architects and  
Landscape Architects 1930
- Fellowship for Graduate Study, Massachusetts Institute  
of Technology 1932-33
- Francis J. Plym Fellowship for travel in Europe 1935-36

11. Nominee has traveled in the following countries: (continued)

Venezuela, Brazil, Argentina, Chile, Peru, Colombia, Panama,  
Guatemala, El Salvador, Mexico, Japan, etc.

12. Other data concerning nominee's record: (continued)

Professional Societies, etc.:

- American Institute of Architects
- American Institute of Planners
- Tau Beta Pi
- Instituto de Arquitectos de Puerto Rico
- Sociedad Interamericana de Planificación
- Colegio de Ingenieros, Arquitectos y Agrimensores de Puerto Rico
- Cosmos Club (Washington, D.C.)

11-2

DESIGN

1. List the significant work of the nominee in this category:

<u>Project</u>	<u>Location</u>	<u>Year of Completion</u>
Quintana High Rise Condominium	Rio Piedras, P.R.	1966
Commonwealth Housing Center	Rio Piedras, P.R.	1968
El Monte Urban Renewal Project	Rio Piedras, P.R.	1969*
Apartments for Dorado Beach Hotel	Dorado, P.R.	1969
Psychiatric Care Clinic	Ponce, P.R.	1961
Selles Gardens Housing Project	Rio Piedras, P.R.	1967
Office Building, Housing Investment Corp.	Rio Piedras, P.R.	1963

\*In collaboration with Edward L. Barnes FAIA

2. Describe the qualities of the nominee's design which are considered to have contributed notably to the advancement of the profession:

Mr. Reed has been active in the design of large scale low and moderate cost housing during his entire professional career, and in private practice, beginning in 1957, he has specialized in such projects, all of which bear the mark of being in the vanguard of thinking as regards site and unit planning. His use of simple materials and reliance on mass, proportion, and spacial relationships for the creation of an effective architectural environment is noteworthy.

As an example, the Quintana Project (FHA - Title 234) which consists of 384 units in two tower buildings built around a central plaza, cost only slightly more than \$10,000 per dwelling unit including all electric services and equipment as well as a nursery school and other community facilities. Through-ventilation,

(continued on next page)

3. List the significant awards, honors and recognition accorded by The Institute and other professional, government, or civic organizations for the nominee's work in design:
- First Honor Award, Federal Housing Administration, Honor Awards for Residential Design, El Monte High Rise I, 1963.\*
  - First Honor Award, Urban Renewal Administration, Housing and Home Finance Agency for El Monte Urban Renewal Project, 1964.\*
  - First Honor Award, Urban Renewal Administration, Housing and Home Finance Agency for El Monte Master Plan, 1964.\*
  - Design Award - Urbe Magazine, El Monte Commercial Center

\*Awards made to nominee's firm and collaborating architect

4. Books or articles written by nominee in connection with design:
- | <u>Title of Book or Article</u> | <u>Publication Date</u> | <u>Publisher</u> |
|---------------------------------|-------------------------|------------------|
|---------------------------------|-------------------------|------------------|

See Page 12, paragraph 4, under "Architects in Government or Industry".

113

## DESIGN

### 2. (continued)

so important to comfort in the Puerto Rican climate, was accomplished without sacrificing low cost by an ingenious system of skip-stop elevators.

The Selles Gardens, public housing project of 300 units, has no through streets, and access to the community building and athletic facilities is possible from all parts of the development without encountering any vehicular traffic. Dwelling units are designed for maximum ventilation, privacy, and tenant maintenance, as well as low cost.

The clean lines of the Commonwealth Housing Center building, and its frank expression of structure used functionally to screen the direct sun, are typical of the nominee's architecture in Puerto Rico.

The El Monte, Urban Renewal Project carried out in collaboration with Edward L. Barnes FAIA, who was primarily responsible for the design, follows the same standards as the projects referred to above. It was the first Urban Renewal Project in Puerto Rico and has received several national and local awards.

SCIENCE OF CONSTRUCTION

1. List significant work of nominee in this field:
- |                |                 |                           |
|----------------|-----------------|---------------------------|
| <u>Project</u> | <u>Location</u> | <u>Year of Completion</u> |
|----------------|-----------------|---------------------------|

Refer to pages on "Architects in Government or Industry"

2. Describe nominee's achievements in science of construction which are considered to have contributed notably to the advancement of the profession:

3. List the significant awards, honors and recognition accorded by The Institute and other professional, governmental, or civic organizations for the nominee's work in science of construction:

4. Books or articles written by nominee in connection with the science of construction:
- |                                 |                         |                  |
|---------------------------------|-------------------------|------------------|
| <u>Title of Book or Article</u> | <u>Publication Date</u> | <u>Publisher</u> |
|---------------------------------|-------------------------|------------------|

EDUCATION

1. List educational positions held by the nominee and period of each:

<u>Position</u>	<u>From</u>	<u>To</u>
University of Illinois, Assistant in Design Department, School of Architecture	1930	1931
University of Manitoba, Assistant Professor to fill leave of absence of Design Professor	1931	1932
Massachusetts Institute of Technology Assistant, Department of Architecture during graduate study	1933	1934

2. Describe nominee's achievements in education which are considered to have contributed notably to the advancement of the profession: (continued on next page)

3. List the significant awards, honors and recognition accorded by The Institute and other professional, governmental, or civic organizations for the nominee's work in education:

4. Books or articles written by nominee in connection with education:

<u>Title of Book or Article</u>	<u>Publication Date</u>	<u>Publisher</u>
---------------------------------	-------------------------	------------------

## EDUCATION

### 1. (continued)

#### Visiting Lecturer:

Rhode Island School of Design	1934
American University	1946
Massachusetts Institute of Technology	1950
Harvard University	1950
University of Puerto Rico	1956
University of Florida	1965

LITERATURE

1. List the positions held by the nominee in the literary field:  

<u>Position</u>	<u>From</u>	<u>To</u>
-----------------	-------------	-----------

Refer to pages on "Architects in Government or Industry"

2. Describe the nominee's achievements in literature considered to have contributed notably to the advancement of the profession:
3. List the significant awards, honors and recognition accorded by The Institute and other professional, governmental, or civic organizations, and the public for the nominee's literary work:

4. List the original written works of the nominee:  

<u>Title of Publication or Book</u>	<u>Date Published</u>	<u>Publisher</u>
-------------------------------------	-----------------------	------------------

SERVICE TO THE PROFESSION

1. List the offices and committees in architectural organizations occupied by the nominee and the period of each:

<u>Office or Committee</u>	<u>From</u>	<u>To</u>
Director or Officer of the Puerto Rico Chapter from its founding	1966	Present
Director	1966-68	
President	1968-Present	
Member: Urban Design Committee Puerto Rico Chapter	1966	Present
Member: Interprofessional Committee, Colegio de Ingenieros, Arquitectos y Agrimensores	1966	Present

2. Describe the specific achievements of the nominee which have contributed notably to the advancement of the profession in the field of service to the profession by his service listed above.

For many years prior to the founding of the Puerto Rico Chapter, the nominee encouraged young architects working in his office to join the AIA by acquainting them with the advantages and responsibilities of membership, the AIA documents and publications and assisting them in the payment of dues.

He has been active in Chapter affairs ever since its founding. He has provided leadership in the Chapter's opposition to the imposition on architects of responsibilities for certification of construction having legal and liability connotations far above normal supervision, and he is currently active in this campaign.

(continued on next page)

3. List the significant awards, honors and recognition accorded by The Institute and other professional, governmental, or civic organizations for the nominee's work in service to the profession:

4. Books or articles written in relation to work done while the nominee served the profession:

<u>Title of Book or Article</u>	<u>Publication Date</u>	<u>Publisher</u>
---------------------------------	-------------------------	------------------

## Service to the Profession

### 2. (continued)

His work on the Interprofessional Committee of the Colegio de Ingenieros, Arquitectos y Agrimensores has been effective in improving the relationship between architects and professional engineers, and in opposing the imposition of a mandatory fee schedule by engineers for services performed.

Mr. Reed's work on the Urban Design Committee is described under Urban Design.

PUBLIC SERVICE

1. List the offices and committees in civic organizations and voluntary governmental positions occupied by the nominee and the period of each:

<u>Office or Committee</u>	<u>From</u>	<u>To</u>
Member, Citizens' Committee, Nuevo Centro de San Juan	1967	Present
Member, Citizens' Advisory Committee to the Mayor of San Juan	1965	1968
Member, Council of the Casa del Libro	1960	Present
Director, National Housing Conference	1965	Present

(continued on next page)

2. Describe the specific achievements of the nominee which have contributed notably to the advancement of the profession in the field of public service by his service listed above:

As a member of the Citizens' Committee of the Nuevo Centro de San Juan, Mr. Reed has been active in presenting the technical aspects of the new center for metropolitan San Juan to the public and the Legislature, and in the fund raising campaign which totaled \$300,000. He participated in the founding of the Citizens' Committee and has contributed to its policy decisions throughout its two years of existence. He and Osvaldo Toro FAIA are the only architects on the Committee.

The nominee was a member of the Mayor of San Juan's Committee of citizens to evaluate planning, social, and economic programs in the community from 1966 until 1968.

(continued on next page)

3. List the significant awards, honors and recognition accorded by The Institute and other professional, governmental, or civic organizations for the nominee's work in public service:

4. Books or articles written in relation to work done while the nominee served the public:

<u>Title of Book or Article</u>	<u>Publication Date</u>	<u>Publisher</u>
---------------------------------	-------------------------	------------------

11/11

Public Service

1.	(continued)	<u>From</u>	<u>To</u>
	Director, Orchid Society of Puerto Rico	1966	1968
	Member, National Defense Executive Reserve	1962	1967
	Member, Governor's Committee on the Building Code of Puerto Rico	1959	1961
	Honorary Member Citizens' Consulting Board of the Commercial Development Company of P.R.	1962	1964
2.	(continued)		

The Casa del Libro in Old San Juan is a library of fine books dedicated to improvement of the quality of printing and to cultural advancement in Puerto Rico. As a member of its Council, Mr. Reed has assisted in membership and fund raising drives, and is presently active in advising the Council on the technical aspects of expanding its physical facilities.

The nominee has been a Director of the National Housing Conference for a number of years, and a member for 35 years. This organization is dedicated to formulating national housing policy and appearing before Congressional committees in the public interest in relation to housing legislation and appropriations. He has represented Puerto Rico at numerous national meetings.

As a Director of the Puerto Rico Orchid Society, the nominee has assisted in the preparation of orchid shows in San Juan, and in the business aspects of the Society.

Mr. Reed was a member of the Governor's Committee to revise the Building Code of Puerto Rico, and participated in the numerous meetings and discussions involved, for nearly two years.

URBAN DESIGN

1. List significant work of the nominee in this field:

<u>Project</u>	<u>Location</u>	<u>Year of Completion</u>
Nuevo Centro de San Juan (New Center for San Juan)	San Juan, P.R. (Hato Rey area)	In progress
Quintana Area	Rio Piedras, P.R.	In progress
Carolina New Town	Carolina, P.R.	1962

2. Describe nominee's achievements in urban design which are considered to have contributed notably to the advancement of the profession:

As a member of the Urban Design Committee of the Puerto Rico Chapter, Mr. Reed has been active in the development of the concept and technical studies made for a new center for Metropolitan San Juan on land being transferred by the Federal Government to the Commonwealth. The work of the Committee first consisted of the evolution of a basic plan and model used to gain public and government interest in the exceptional opportunity that exists to create a new heart of the city on land which is almost completely vacant. Later, after funds had been raised and a technical staff with paid consultants established, the Urban Design Committee has acted as advisor to the technical staff through meetings held almost weekly over a period of more than 18 months.

(continued on next page)

3. List the significant awards, honors and recognition accorded by The Institute and other professional, governmental, or civic organizations for the nominee's work in urban design:

4. Books or articles written by nominee in connection with urban design:

<u>Title of Book or Article</u>	<u>Publication Date</u>	<u>Publisher</u>
Petition to the Planning Board of Puerto Rico for the Nuevo Centro de San Juan*	1967	P.R. Chapter AIA

\*Nominee was principal author for the Urban Design Committee

(continued on next page)

Urban Design

2. (continued)

However, prior to the formation of the AIA Chapter in Puerto Rico Mr. Reed was active as an individual architect and planner in calling the attention of the Government and community leaders to the necessity of developing a new center of the city in the Hato Rey area. His initial study, listed below, was prepared in 1958 in collaboration with an economist, and presented as a public service to the Planning Board of Puerto Rico, in an effort to draw attention to the potential that existed to create a new center for the city on land that was essentially vacant and unplanned. Two years later, in 1960, Mr. Reed prepared a brochure containing a study of the area in more graphic detail, which was circulated in business and Government circles, again calling the attention of the Government to the trend of development of the city and the exceptional opportunity existing.

In 1961 Mr. Reed's office prepared a master plan for the Quintana area of Rio Piedras consisting of 650 acres of urban land, formerly occupied by a race track and neighboring areas. The plan established the principles of reducing vehicular through-traffic, integration of high rise and low rise housing, commercial facilities, and park and school areas, the creation of an urban environment not dominated by the automobile. (See exhibit No. 10)

The design for an addition to the town of Carolina, Puerto Rico was prepared in 1962 for the Puerto Rico Urban Renewal and Housing Corporation. It integrates the existing town with the "new" area by the development of a new town center with satellite neighborhoods. The plan has not yet been implemented due to lack of funds for flood control of the area.

ARCHITECTS IN GOVERNMENT OR INDUSTRY

1. List the important positions held by the nominee in government or industry:

<u>Position</u>	<u>From</u>	<u>To</u>
Consultant to PWA Housing Division, Washington, D.C. on Foreign Housing	1935	1936
Principal Project Planner, United States Housing Authority - in charge of the development of large scale housing in five southeastern states	1937	1940
Director, Division of Housing Standards, Office of the Defense Housing Coordinator	1940	1942

(continued on next page)

2. Describe the specific achievements of the nominee in various positions in government or industry which have contributed notably to the advancement of the profession:

Mr. Reed's professional career in government and industry has been largely devoted to planning, design, and the development of large-scale low cost housing projects, and the development of design standards and construction methods. He has studied extensively building methods and materials in Europe both as Consultant to the Public Works Administration, where his work resulted in a report on housing programs and techniques in a number of countries, and as a member of President Roosevelt's three-man Special Housing Mission to Great Britain in 1942. The latter entailed investigation of emergency housing for war workers in Great Britain. Mr. Reed was in charge of all technical investigations.

(continued on next page)

3. List the significant awards, honors and recognition accorded by The Institute and other professional, governmental, or civic organizations for the nominee's work in government or industry:

4. Books or articles written in connection with nominee's positions in the above field:

<u>Title of Book or Article</u>	<u>Publication Date</u>	<u>Publisher</u>
"New Homes for Old"*	February 1940	Foreign Policy Assn.
"Summary of Standards for Defense Housing" *See Synopsis	January 1941	Office of Emergency Management, Division of Defense Housing Coord.

(continued on second page following)

11-13

## Architects in Government or Industry

1. (continued)

	<u>From</u>	<u>To</u>
Member of the President's Housing Mission to Great Britain in charge of technical investigations		1942
Deputy Housing Expediter and Director, Technical Office, National Housing Agency	1946	1947
Vice-President, Southern California Homes, Inc., Bell, California	1947	1948
Vice-President, IBEC Housing Corporation, New York, N.Y. and San Juan, P.R.	1948	1957
Consultant, National Security Resources Board		1952

2. (continued)

Mr. Reed returned from England to work on the organization of the Technical Division of the National Housing Agency and became its Chief of Housing Standards. After three years' service in the Marine Corps he was appointed Deputy Housing Expediter and Director of the Technical Office responsible for final technical review of all applications for financial assistance from companies producing industrialized housing and building materials, and for administering a Research Fund of \$750,000 for the study of building materials and processes. He initiated an extensive research program in the field of lightweight concrete aggregates which was carried out by the scientists at the Bureau of Standards and the Bureau of Reclamation. Mr. Reed also directed the development of Performance Standards for Residential Construction, the first published set of criteria establishing housing standards on a performance rather than a specification basis - an important step toward the modernization of building codes. A Plumbing Code for housing which freed the building industry of many obsolete and expensive practices was developed under his direction as a project at the Bureau of Standards.

In 1947 the nominee became the Vice-President of Southern California Homes, Inc., where he combined his technical knowledge of materials and processes in the supervision of design and the production of a prototype house for large-scale production involving engineering and design techniques developed in the airplane industry. He also designed and supervised the manufacture of a housing structure for the U.S. Navy built of aluminum-faced honey-comb core panels to be used in the Arctic under the most severe weather, erection, and transportation conditions.

97-16

## Architects in Government or Industry

### 2. (continued)

As Vice-President and a Director of the IBEC Housing Corporation (a subsidiary of the International Basic Economy Corporation), Mr. Reed was a major contributor to the development of the IBEC Method of Low Cost Housing Construction, and was responsible for the project which first tested it on a large scale. Later he directed the IBEC Housing Program in Puerto Rico, which resulted in refinement of the method, further rationalization of construction processes, and the building of thousands of low cost homes of reinforced concrete construction.

Mr. Reed served as a consultant to the National Security Resources Board while an officer of the IBEC Housing Corporation. He produced a comprehensive report on "Housing Problems in Post-Attack Industrial Rehabilitation" and two additional studies on national security as affected by the vulnerability of urban areas, and by this country's activities and policies in connection with housing and community facilities.

### 4. (continued)

"The Case for Factory Made Housing" (See brief resumé below)	June 1947	National Committee on Housing, Inc.
"Planning the Expansible House"	1947	National Housing Agency
"The Best Investment in the World" (See brief resumé below)	April 1952	The United Nations World

"The Case for Factory Made Housing," was the lead-off for a symposium on the subject of prefabrication. It is an analysis of the antiquated processes of the home construction industry and a resumé of the potential benefits of rationalization of building processes.

"The Best Investment in the World" analyzes the problem of providing adequate housing throughout the world in terms of financial measures. It suggests the creation of a "World Housing Bank" operating with guarantees from member nations and bonds in a manner similar to the International Bank. In individual countries the system would operate like the FHA in the United States, but with international guarantees and standards of design and construction related to local customs and requirements. The idea was later adopted by the Alliance for Progress for its housing program in Latin American countries.

## Resumé of "New Homes for Old"

"New Homes for Old" is one of a series of "Headline Books" published by the Foreign Policy Association of New York. Printed in 1940, it outlines the housing problems existing in the United States at that time and points to the advantages of reviewing European experience after World War I in attacking the problems of slum clearance, housing, and urban development.

It explains, in layman's terms, the problems of environment generated by the move to the cities which started with the industrial revolution. It traces the development of city planning in England and the techniques of land planning and development that are the basis of much of the better urban planning today. It discusses standards of design and construction.

The book then takes the reader for a brief inspection tour of housing in England, France, Austria, Germany, Sweden, and Holland pointing out the financial, social, and design aspects of each program that might have applicability in the United States. It ends with a discussion of the magnitude of the housing problem and suggestions regarding a program which, had it been followed, might now find us much closer than we are to our objective of a decent urban environment for everyone.
