THE AMERICAN INSTITUTE OF ARCHITECTS THE OCTAGON, WASHINGTON, D. C.

May 17, 1951

TO: ME. PURVES MR. TAYLOR

PROM: J. W. RANKIN

Isadore Rosenfeld of New York telephoned to edvice me that his name was inadvertently omitted from the designers of the Wilkes Barre Mospital.

Mr. Rosenfeld said we could, of course, check with the firm of Kelly-Gruzen, under whose name the hospital appeared in the National Monor Awards showing.

The name should be listed "Kelly & Gruzen-Isedore Rosenfeld, Architects & Engineers".

Re: Application of ISADORE ROSENFIELD

Gentlemen:

Since our Admissions Committee acted upon the application for membership of Isadore Rosenfield, some additional information has come to light. Our Admissions Committee had previously considered his application favorably and the necessary papers had been forwarded to you.

In view of the present circumstances, would you mind holding any action on his membership until you hear further from the New York Chapter?

Sincerely yours

Dear Sir:

I am pleased to inform you that your application for membership in The Institute was acted on favorably by The Board of Directors and that you were admitted to corporate membership in The Institute and assigned as indicated below.

You will be a member of the listed organizations, unless you later transfer therefrom, until your membership in The Institute terminates.

Your certificate of membership, duly executed by the Officers of The Institute, will be sent in due course.

The Board of Directors welcomes you to membership in The Institute, and my office is at your service to the extent of its powers.

The Policies of The Institute are developed largely from activities within the chapters and State organizations. By taking an active part in their affairs, you will contribute to the advancement of the objects of The Institute and will increase the benefits to be derived from Institute membership.

I bespeak your active cooperation.

Sincerely yours,

Mr. Isadore Hosenfield, A.I.A. NJ West 47th Street New York 19, New York

DEAR MR. DITCHY:

! AM A MEMBER OF THE INSTITUTE OF ONLY A FEW MONTHS DURATION. WHAT JOLTED ME TO APPLY WAS THE RUMOR THAT ! WAS CONSIDERED FOR FELLOWSHIP BY MY CHAPTER, ONLY TO FIND THAT ! WAS NOT EVEN A MEMBER.

NATURALLY, IF I AM FELLOW MATERIAL, I WOULD LIKE TO ENJOY THAT HONOR; BUT THEN THERE IS THE 10-YEAR MEMBERSHIP RULE. COULD YOU INFORM ME IF THERE EVER WERE EXCEPTIONS TO THE 10-YEAR RULE AND COULD YOU SUGGEST ANY STEPS THAT I MIGHT TAKE TO MERIT SUCH AN EXCEPTION?

I AM ENCLOSING A COPY OF MY PROFESSIONAL RECORD.

ISADORE ROSENFIELD

IR/SB

PROFESSIONAL RECORD.

of

ISADORE ROSENFIELD

Architect - Hospital Consultant

45 West 45th Street New York 36, N. Y.

BRIEF STATEMENT OF PROFESSIONAL RECORD

ISADORE ROSENFIELD (B.S., M.ARCH.) architect and hospital consultant was educated at Harvard and devoted his professional life from the beginning to hospital and related planning. He studied and worked with three of the greatest hospital planners of his time: Dr. S.S. Goldwater*, Thomas B. Kidner*, and Edward F. Stevens*. In his thirty years of professional activity he probably designed or directed the design of more hospitals than any American Architect.

Among his activities prior to entering private practice he had been for about eight years assistant professor and special lecturer at the School of Architecture of New York University and for over ten years he filled the post of Chief Architect for the City of New York where he had charge of a hospital planning program which amounted to well over one hundred million dollars.

He won prizes in international hospital planning competitions, contributed a great deal to hospital literature, has given a series of fifteen lectures on hospital planning at the Architectural League of New York, and his book on hospital planning, HOSPITALS - INTEGRATED DESIGN, was published in February 1947; revised edition 1951.

His current practice embraces hospitals for the State of New York, the Government of Puerto Rico, the Atomic Energy Commission, the Veterans Administration and many voluntary hospitals in different parts of the United States and the Republic of Colombia.

He is on the roster of Hospital Architects of the American Hospital Association and a member of the Association; he is also on the roster of Hospital Consultants of the American Hospital Association and the American Medical Association.

He is a member of the American Institute of Architects.

PROFESSIONAL RECORD

ISADORE ROSENFIELD

1918	- Harvard College, B.S.
1918-19	- U.S. Army Engineers (Honorably Discharged).

THE AMERICAN INSTITUTE OF ARCHITECTS THE OCTAGON, WASHINGTON, D. C.

Administration Building 1735 New York Avenue, N. W.

October 9, 1952

Dear Mr. Rosenfield:

In response to your letter of October 6, may we say that we do not know of any instances where there has been a weiver of the ten year membership rule for advancement to Fellowship in The Institute.

On behalf of The Secretary,

Yours very truly,

J. W. Rankin

Administrative Secretary

Mr, Isadore Rosenfield, Architect 45 West 45th Street New York 36, New York

JWR/hd

THE AMERICAN INSTITUTE OF ARCHITECTS JURY OF FELLOWS

No. NF #1193

Received Sept. 23	1966
Voted On March	1967
Voted On	19

(b) Scholarships held by nominee:

3

Harvard College

Harvard Sch. of Arch

11. Nominee has traveled in the following countries: El Salvador, Brazil, Uruguay, Argentina, Chile, Peru, Ecuador, Colombia, Venezuela, Panama, Mexico, Canada, Sweden, Norway, Denmark, Netherlands, Belgium, Great Britain, France, Italy, Spain, Greece, Turkey, Lebanon, Pakistan, India, Russia, Siam, Japan, etc.

1918

1922 (Jan.)

B.S.

M. Arch.

- 12. Other data concerning nominee's record: (important experiences during employment or additional statistics of importance in nominee's record)
- 1. Silver Medal Societe des Architectes Diplomes par le Government Français, Harvard, 1920.
- Bronze Medal Ente Provinciale Turismo, Torino, Italy, Selezione Mondiale dell Edelizia, 1954 (see attached typewritten page)

Additional Data for Page 2, paragraph 12.

3.	A.I.A. Award of Merit in Hospital Architecture, U.S. Veterans Adm.	
	Hospital, Wilkes-Barre, Pa. (with Kelly & Gruzen)	1951
4.	P/A Design Awards Program, Memorial Hospital, Belleville, Illinois	
	(with Hellmuth, Obata and Kassabaum), Award Citation	1956
5.	P/A Design Awards Program, Industrial Hospital, Puerto Rico	
	(with Zachary Rosenfield), Award Citation	1960
6.	N.Y. State Assoc. of Architects, Award for Distinguished Achievement	
	in Prof. Practice, Tuberculosis Hospital, Puerto Rico	1950
7.	N.Y. State Assoc. of Architects, Award of Merit, North Shore Hospital,	
	Manhasset, L.I., N.Y.	1951
8.	N.Y. State Assoc. of Architects, Award of Merit, Ponce Hospital	
	Center, Ponce, Puerto Rico	1951
9.	New York State Assoc. of Architects, Certificate of Merit for	
	Outstanding Design, Nursing Home, Puerto Rico	
	(with Zachary Rosenfield)	1962
10.	The Modern Hospital of the Month, Planning Award, The North	
	Shore Hospital, Manhasset, L.I., N.Y.	1951
11.	The Modern Hospital of the Month, Memorial Hospital, Belleville, III.	
	(with others)	1956
12.	The Modern Hospital of the Month, Clark Field Hospital, Clark Air-	
	Force Base, Philippine (with others)	1960
13.	The Modern Hospital of the Month, Worcester City Hospital	
	Worcester, Mass. (with others)	1962
14.	The Modern Hospital of the Month, Olean General Hospital, Olean,	10/
	N.Y. (with others)	1964

NOMINEE'S ACHIEVEMENT IN ARCHITECTURAL DESIGN

(Part I of this page must be executed in all cases regardless of category for which nomination is made to conform to photographic exhibits which will be submitted.)

1.* Works

2. Describe nominee's notable work in design, to bring out the particular achievements the nominators believe have notably contributed to the advancement of the profession.

(see attached typed sheets)

^{*} Part 1 above must be executed in all cases regardless of category for which nomination is made to conform to photographic exhibits which will be submitted.

Data for page 3, paragraph 2.

- I. Tuberculosis Hospital, Rio Piedras, Puerto Rico, 800 beds (1949)

 A barebones structure suitable to its purpose, climate, economy and culture of the country, and the ability of its builders. Set an example of grass roots architecture rather than to copy Spanish or continental U.S. architecture. The simple reinforced concrete structure, enhanced by balconies, stairs, penthouses and the like, plus the texture of the projecting windows provide the character of the buildings of which there are two: the Main Building and the Children's Building. The plan is strung out and facing the prevailing breezes. The light is so strong that windows (which are closed only during hurricanes) are "glazed" with sheets of asbestos board. (N.Y. State Assoc. of Architects Award 1950, Published P/A November, 1955).
- 2. Roswell Park Memorial Institute, Buffalo, New York, 500 beds (1951)

 New York State Dept. of Health institution to treat patients afflicted with cancer and related malignancies, to conduct research and to prepare specialists in this field of human misery. The designer tried to convey a relaxed rather than formal feeling.

 Many technical problems had to be overcome such as housing of multi-million volt x-ray apparatus which found expression in the low protruding wing. (Published in Architectural Record, February, 1950 and in Empire State Architect, February 1950).
- 3. Veterinary College, Cornell University, Ithaca, New York (1954)
 A school of veterinary medicine with teaching hospitals for large and small animals, facilities for research and outdoor convalescence for animals; all elements find clear expression in this extensive "campus". The 28' slope in the site was taken advantage to make it possible for animals to walk into the buildings at different story levels. The country landscape with its white houses and red barns is recalled in the design of the college through the use of red brick and white rough-sawn marble. (Published, Architectural Forum, September, 1954).
- 4. Beckley Memorial Hospital, Beckley, West Virginia, 200 bed general hospital (1956) This is one of ten miners' hospitals in Appalachia, U.S.A. Another barebones structure of red brick and reinforced concrete. We have long abolished the proverbial ugly self standing round smoke stack by making it rectilinear and incorporating it in the structure (not hiding it). The simplicity of the building is relieved by extensive use of glass in enclosing of the stairs and penthouse. The patients love to sit and take in the view of their beloved mountains from the glass stairs and the "natives" dubbed the hospital "The Beckley Air Port" because the penthouse is enclosed in glass instead of heavy masonry. (Published Architectural Forum, August, September and November 1953 and the Modern Hospital, December, 1953).

Data for page 3, paragraph 2. (continued)

5. Worcester City Hospital, Worcester, Mass., 450 bed general hospital (1960) This project imposed the necessity of converting a Florence Nightingale pavilion hospital of the late 19th century into a modern hospital without operational interruption. Two "pavilions" in the middle of a long line of pavilions were torn down providing a "postage stamp" site. To accomodate enough beds per floor, to keep down operating costs, the "tyranny of the square" (Architectural Forum) was broken by the invention of the pinwheel nursing unit" (also Forum). (Published in The Modern Hospital as the Hospital of the Month, April, 1962).

NOMINEE'S ACHIEVEMENT IN SCIENCE OF CONSTRUCTION

1. Construction Work

TYPE OF WORK CONSTRUCTED

IDENTIFICATION OF WORK

LOCATION OF WORK COMPLETED CONSTRUCTION WORK (Year) PHOTOGRAPHS DRAWINGS, OR SKETCHES SUBMITTED TO JURY OF FELLOWS

2. Books: Freatises, an Articles Written

Progressive Architecture

July, 1965

3. Describe nominee's notable work in the science of construction and any recognition thereof by other societies, to bring out the particular achievements the nominators believe have notably contributed to the advancement of the profession.

- Stacks of "Outboard" fiberglass bath rooms prefabricated and attached to existing building from outside.

 East Orange General Hospital, East Orange, N.J., while patients occupy rooms, except for short period of breaking through connecting door between bath room and patients' room. Published in Hospitals, Journal of the American Hospital Assoc., November 1, 1965. Partner invited to speak on subject at convention of Fiberglass Manufacturers Assoc. in February, 1967.
- (b) Developed principle of contiguity planning of hospitals, widely followed in England, Scandinavian countries and to some extent in the U.S.
- (c) Consultant for U.S. Air Force in Hospital Planning 1959–1961.
- (d) Developed new types of nursing units for hospitals: T with partial double corridor, Pinwheel type which the Forum said "broke the tyranny of the square".

NOMINEE'S ACHIEVEMENT IN EDUCATION AND LITERATURE

1. Education Work

(List the degrees and the educational positions held by the nominee, and bring out clearly the nominee's signal work and its particular force and influence which the nominators believe to be a notable contribution to the advancement of the profession, and state evidences of recognition of such work by pupils, the profession, other societies, or the public.\

Assistant Professor, New York University School of Architecture 1932/33 – 1938/39 Special Lecturer " " " 1939/40

Gave a course of lecturers in hospital planning under the auspices of the A.I.A. New York Chapter at the Architectural League.

Visiting Critic in graduate design School of Architecture Columbia University Visiting Critic at School of Architecture, Yale University

Juror in design at Michigan University, Yale University, Columbia University, Society of Beaux Arts Architects, N.Y.

Lecturer at Denver University, Mass. Institute Technology and Pratt Institute

Receives and gives generously of his time to frequent visitors (American and foreign students, professionals, as well as government representatives) from many parts of the world who seek knowledge in hospital planning.

Professor (adjunct) graduate course in hospital planning at Columbia University which grew into a Masters degree group of courses in hospital planning.

Gave paper entitled "Extramural Considerations in Planning Medical Teaching Facilities" at the 14th Congress of the International Hospital Federation at Stockholm, Sweden, June, 1965. New York Chapter A.I.A. Hospital and Health Committee Lecture on Theory of Horizontal Contiguity in Hospital Planning.

American Association of Hospital Planning, Lecture as above, 1963

2. Literary Work

(List the original written works of the nominee and state clearly the particular force and influence of that work which the nominators believe to be a notable contribution to the advancement of the profession, and state evidences of recognition of such work by other societies, the profession, educational institutions or the public.)

NOMINEE'S ACHIEVEMENTS IN SERVICE TO THE PROFESSION

1. State fully the nominee's signal service to the profession, The Institute, his chapter, or his state organization, which the nominators believe has notably contributed to the advancement of the profession, and list the offices in architectural organizations occupied by the nominee and the period of each.

Member of Hospital and Health Committee of New York Chapter of the A.I.A. for several years.

Chairman of research subcommittee of the above Hospital and Health Committee.

Member of the Speakers Committee of New York Chapter of the A.I.A.

Gave course of lectures on hospital planning at New York Chapter of the A.I.A. in early 40's.

Gave a lecture on hospital planning at New York Chapter of the A.I.A. under auspices of the Chapters Hospital and Health Committee in the late 50's.

Served on an ad hoc committee on fees for New York State projects for the New York State Association of Architects.

Other minor assignments.

NOMINEE'S ACHIEVEMENT IN PUBLIC SERVICE

1. List the public offices held by the nominee and the positions of trust held by him in recognition of civic leadership, and state clearly his notable work in public service and the particular influence of that work which the nominators believe to be a notable contribution to the advancement of the profession.

Architectural Research Assistant to the Commissioner of the Department of Hospitals of the City of New York 1934–1936.

Senior Architect Department of Hospitals of the City of New York 1936-1940.

Chief Architect, Dept. of Public Works of the City of New York 1940-1945.

In the above positions the applicant had been instrumental in appointing architects of high caliber to do city work, thus elevating the standard of municipal architecture.

Hr. Isadore Rosenfield, MAIA 45 West 45th Street New York, New York 10036

Dear Mr. Recenfield:

The American Institute of Architects desires to conforupen you the henor of Followship and numbership in the Golloge of Follows, in accordance with the action of the Jury of Follows at its recent meeting, for your notable contribution to the advancement of the profession in Design and Literature.

Your presence is requested at the 1967 Convention of the Institute to be held in Mar York City, May 14-18.

Those who have been advanced to Fellowship will receive their certificates and models at the Annual Dinner on the eventury of Thursday, May 18, 1967, in the Grand Ballroom, New York Hilton Hotel. Presentation will be with appropriate ceremony and it is highly desirable that each of the newly advanced Fellows be present.

The Officers of the Institute and the Jury of Policus join in the request that you come to receive this honor in person. Please dend your response to the Institute at an early date.

Sincerely yours,

Rex W. Allen, FAIA Secretary

March 20, 1967

Hr. Isodore Rosenfield, PAIA 45 West 45th Street New York, New York 10036

Deer Mr. Rosenfield:

At the recent meeting of the Jury of Fellows, you were advanced to Fellowship in the Institute and admitted to membership in the College of Fellows for your notable contribution in Design and Liberature.

At the New York Convention, there will be an exhibition of the work of the Fellows who were advanced for Design. In this connection, the Jury has selected three photographs in your exhibit for this occasion. The three photographs selected are marked with a star on the back of the mounts and are as follows:

- 1. Hoswell Park Hemerial Institute Buffalo, N. Y. 2.
- 3. Tuberculosis Hospital Rio Piedras, Puerto Rico

Under separate cover, the Institute is returning your entire exhibit to you and the photographs which were selected by the Jury for Convention exhibition, as described above, should be reproduced, if necessary, in black and white, all on one mount, $40^{\rm m} \times 40^{\rm m}$, to conform to the instructions enclosed.

On behalf of the Jury of Fellows, I went to congratulate you on your achievement and welcome you to Fellowship.

Sincerely.

Paul R. Hunter, FAIA Chairman - Canpentier and

FOR RELEASE SUNDAY, April 30, 1967

WASHINGTON D. **c.**, April 23 -- Eight New York architects have been advanced to Fellowship in The American Institute of Architects. The AIA announced 82 national recipients of the lifetine honor here today.

Aside from the Gold Medal, which may be presented to a single architect from any part of the world, Fellowship is the highest honor the Institute can bestow on its members. The new Empire state fellows include:

Alfred B. Bauer, 68, of the Department of Public Works, New York City Simon Breines, 61, of 8 Horseguard Lane, Scarsdale, N. Y. George D. Brown, Jr., 60, of 249 East 48th Street, New York City Alan Burnham, 54, of 65 Fairfield Road, Greenwich, Conn. Victor A. Lundy, 44, of 103 Boston Street, Guilford, Conn. George Nemeny, 55, of 145 Arrandale Avenue, Kings Point, N. Y. Isadore Rosenfield, of 5998 Palisdae Avenue, New York City Simon B. Zelnik, 4502 Henry Hudson Parkway, Riverdale, N. Y.

The 82 new Fellows bring the number of Institute members using the letters FAIA after their names to 762, among nearly 19,000 corporate members of The American Institute of Architects. There are now 92 architects in New York State who hold the FAIA distinction.

Bauer and Brown were elevated to membership for public services achievements; Nemeny, Lundy and Brienes for design excellence; Burnham for achievements in literature; Rosenfield for design and literature achievements, and Zelnik for design and education achievements.

Alfred B. Bauer, a native of Hungary, was educated at the Royal Hungarian Polytechnic Institute in Budapest and took his architectural training at the

- more -

designs include the I.B.M. Garden State Office Building and the First Unitarian Church of Fairfield, Westport, Conn. He was recently named architect for the Mall, orchestra shelter, shade and recreation shelters in connection with the new Smithsonian Institution building in Washington, D. C.

George Nemeny was born in Budapest, Hungary, but was educated in schools of New York, graduating in 1934 from Cornell University with his Bachelor of Architecture, and taking post graduate work there also. He received a Cornell State scholarship and a Cornell University graduate scholarship. As head of the firm in New York that bears his name, Nemeny has won a number of honors and awards for architectural design excellence.

Among these are: the "Best Small House," 1936-46, from the New York State Association of Architects; an AID award for Electric Light Fixtures, 1949, and national AIA awards for the home of Marshall Safir, 1963, and for the home of Ray Favata, 1964. Many of his works of architecture have been published in magazines in the U.S., South America, and Western Europe.

Isadore Rosenfield was born in Russia, but spent most of his high school and college years in the Boston area. He received his B.S. in 1918 from Harvard and his Master of Architecture from the Harvard School of Architecture in 1922. A world traveler, Rosenfield is partner in the firm of Isadore& Zachary Rosenfield, Architects Hospital Consultants.

Among his designs that have won awards are: Industrial Hospital, Puerto Rico, 1960; North Shore Hospital, Manhasset, L. I., 1951; Clark Field Hospital Clark Air Force Base Philippine Islands, 1960; and the Olean General Hospital, 1964. This recipient has done extensive writing for national magazines, particularly relating to hospitals and their needs architecturally.

Simon B. Zelnik was born in Lemberg, Austria, and owns his own firm in New York bearing his name. He was graduated from City College in 1923 and in 1931 received his B.A. from New York University. His major achievements

Thornton, St. Petersburg, Fla. William F. Thrall, Grand Rapids, Mich. George F. Trapp, North Little Rock, Ark. Marcus D. Walters, Cincinnati

George Foster Harrell II, FAIA: Once a member of AIA's board of directors, Mr. Harrell was also a past president of the Texas Society of Architects/AIA and of the Dallas Chapter/AIA. He was former chairman of the board of the urban design task force of Dallas and a member of the boards of the Greater Dallas Planning Association, the Texas Research League, the Dallas Museum of Fine Arts and other organizations.

Harry E. Weir, Jackson, Miss.

Mr. Harrell, who died on March 16 at the age of 73, was a partner in the Dallas firm of Gill & Harrell in the 1940s and '50s, forming the firm of Harrell & Hamilton in 1956. He participated in the design of such buildings as the Republic National Bank building, Fairmont Hotel, Dallas Convention Center, North Park Shopping Center and Mountain View Community College. He earned a bachelor of architecture degree at Georgia Institute of Technology and a master's degree from the University of Pennsylvania.

Isadore Rosenfield, FAIA: Known internationally for his hospital designs, Mr. Rosenfield was the author of hundreds of articles on hospital planning, as well as three books that received critical acclaim: Hospitals: Integrated Design, Hospital Architecture and Beyond and Hospitals: Integrated Components. He won architectural awards for such designs as the Industrial Hospital in Puerto Rico; the North Shore Hospital, Manhasset, Long Island; Clark Field Hospital in the Philippines, and the Olen (N.Y.) General Hospital. With Kelly & Gruzen, he

received an AIA honor award of merit in 1951 for the Veterans Administration Hospital in Wilkes-Barre, Pa.

Mr. Rosenfield, who died on March 6 at the age of 86, was born in Russia. He came to this country in 1910 and lived at first in Boston, working at such jobs as a picture framer and a butcher's assistant. In 1918, he received a B.S. degree from Harvard University and two years later a master's degree in architecture.

He served in New York City's department of hospitals from 1936 to 1938, becoming senior architect in 1938. From 1940 to 1945, he was chief architect for the department of public works and was in charge of the city's \$100 million postwar hospital program. In 1949, he organized the New York City firm of Isadore & Zachary Rosenfield. He was associated with the firm until his retirement in 1970.

A lecturer at hospital planning conferences around the world, Mr. Rosenfield also taught at Columbia, Michigan State, New York and Yale Universities. He served on several AIA committees, including hospitals and health and the natural environment. At the time of his death, he was preparing his autobiography for publication.

BRIEFS

"Conducting Successful Energy Audits" is the title of a new AIA professional reference program, designed to give the user experience and skills in energy audits. For information, write: Continuing Education Programs at Institute headquarters.

Hugh Stubbins, FAIA, of Cambridge, Mass., former vice president of the Institute, whose firm won the 1967 architectural firm award, is the recipient of the Thomas Jefferson Memorial Foundation medal in architecture, sponsored by the University of Virginia and the Thomas Jefferson Memorial Foundation.

The home of Nobel prize winner Pearl S. Buck near Dublin, Pa., was recently dedicated as a National Historic Landmark by Cecil D. Andrus, secretary of the Interior. She lived there from 1933 until her death 40 years later. She once remarked, said Andrus, that the 1835 farmhouse symbolized her "strength and durability." The same words characterize her writings, said Andrus, who called her a "human bridge between the civilizations of the East and West."

The United Nations publication "Development Forum/Business Edition" provides advanced information on projects in developing nations, financed by international banks and various governments. Among the fields covered are construc-

tion, energy and tra yearly subscription United Nations, GC York, N.Y. 10017.
