OF ARCHITECTS

May 15, 1913.

Mr. Glenn Brown, Secretary,
American Institute of Architects,
Washington, D. C.

Dear Sir:-

I feel that there are reasons why, I should write this personal letter, for consideration by the Board of Directors, in reference to the enclosed letter ballot. The three men are well known to me these many years past, of moral character, architectural ability and good training. Each of them have had, a large and varied experience, in architectural design, and execution.

Mr. George Gemmill, entered my office a student, in 1894, and rose to become a valued, trusted, assistant. It is my conviction, that if all of the members of the A. I. A. were equally capable and in possession of the same high ethical ideals, that actuate these three younger men, (just a little under forty) the profession of architecture, surely would be in its millenium.

With best wishes, I am, as ever,

Sincerely yours,

B. F. Willis

P. S. You will please excuse the battered appearance of the enclosed letter ballot. It was thrown by mistake into the waste basket, - this untimely fate made the surgical bandages necessary.
