ARCHITECTS' ROSTER QUESTIONNAIRE

TO EVERY ARCHITECT IN THE UNITED STATES AND ITS POSSESSIONS:

The Architects' Roster is maintained by The American Institute of Architects as a service to the profession as a whole and to agencies of the United States Government. Every registered architect, whether or not a member of The Institute, is eligible for inclusion in the Roster. The Institute maintains custody of the Roster, keeps it up to date and in good order for use. The Roster is available to any representative of the Government and to representatives of foreign governments in Washington. Reference may be made to The Architects' Roster in negotiations with government agencies and other interested parties. Experience with the Roster since its establishment in 1946 has shown its usefulness. Growing out of an earlier Register of architects qualified for public works, The Roster provides at The Octagon an accurate, current record of the qualifications and achievements of members of the profession. It allows a positive and helpful response to requests for factual information on architects, and in that way constitutes a service to the profession.

The American Institute of Architects assumes no responsibility for the accuracy of statements made in this Questionnaire. The obligation to maintain this record as a current description of an architectural firm rests with the firm, and supplementary record forms are available for this purpose.

PARTNERSHIPS SHOULD MAKE A JOINT RETURN ONLY.

Original and one copy to be mailed to THE ARCHITECTS' ROSTER, The American Institute of Architects, 1735 New York Avenue, N. W., Washington 6, D. C. One copy to be retained by the author.

5 REMARKS CONCERNING QUALIFICATIONS OF FIRM

(This space is best used to present qualifying information such as number of employees, amount of office space, financial information and other information presumed of interest to a prospective client. Append extra sheet or use back of this form, if necessary.)

While this firm has on its payroll four registered Architects, in addition to the firm members, it also has a Structural Engineer, a Mechanical Engineer, and a Civil Engineer. We therefore are a well balanced Architectural and Engineering Office, rather than an Architectural Office. We occupy a building which has 6000 sq.ft. of floor space, and we therefore have room to expand.

Our experience over 40 years has prepared us to function smoothly and efficiently upon such projects as- Housing Developments - Hospitals - School and University Buildings - Storage Buildings, Warehouses, Commercial Buildings, Industrial Plants, Military Installations, etc.

The Firm of Griffin & Gomon is a Partnership between Harry M. Griffin and William R. Gomon. This Firm is operated with the personnel set forth herein, together with draftsmen, secretaries, bookkeepers, and other office employees. For the past few years the personnel directly employed has never dropped below ten people, and at times there have been considerably more than that number employed.

In addition to the above Firm members and key personnel, certain Associates are available to us, which makes it possible to expand our Organization to a very considerable size.

The building which we occupy has six thousand feet of floor space, and we have equipment to fully utilize all of the space. Therefore, the expanded organization consists of the following:

- (a) An Architectural Division, consisting of the following Registered Architects:

Harry M. Griffin, William R. Gomon, Harry I. Reynolds, Joel W. Sayers, Jr., Cicero Franklin Branan, Jr., and William P. Greening, together with W. E. Haskell, Chief Draftsman, William C. Clark, Jr., Estimator, Howard H. Snowden, Building Superintendent, and Draftsmen.
- (b) A Structural Engineering Division, consisting of James G. Moore, Registered Structural Engineer, on the staff, together with Associate J. L. McCollough of Jacksonville, Florida, available on request.
- (c) A Mechanical Engineering Division, consisting of Kenneth G. Cooper, Registered Mechanical Engineer, on the staff, together with Associates Richard A. Belsham, of Miami, Florida; Enbaugh & Goethe, of Gainesville, Florida; and William Stults, of Jacksonville, Florida, available upon request.
- (d) A Civil Engineering Division consisting of Vernon G. Stepp, Registered Civil Engineer and Land Surveyor, on the staff, together with draftsmen and survey parties.
- (e) A Municipal Engineering Division consisting of Associates Briley Wild and Associates, of Daytona Beach, Florida; and Russell & Axon, of Daytona Beach, Florida, who have offices in the same building.

The above Associates are frequently used by this office on large projects.

This Organization is particularly qualified to perform by virtue of experience and training, on the following:

Housing Developments, Hospitals, School Buildings, Laboratories, Storage Buildings and Warehouses, Commercial Buildings, Industrial Plants, Military Installations, Municipal Installations, etc.

Please consider this an application to be placed with your list of Architectural-Engineering Firms desiring to design and supervise construction.
