It has been a great honor to place my name in the list of signatures to nominate Architect Santiago Iglesias, Jr. A.I.A. for a Fellowship in the A. I. A. for achievement in Public Service. As a member of the A. I. A., New York Chapter and the Institute of Architects of Puerto Rico, I am glad to say, that Architect Iglesias deserves this high honor for his interest and achievement in Public Service. He has been successful in such work.

The law which created the Puerto Rico Planning Board is so broad that covers most everything that should be of interest to an architect and planner as Mr. Iglesias.

He has cooperated in the design and planning of improvements, as for example: parks, playgrounds, public highways and reclamation of blighted areas in the Commonwealth of Puerto Rico. He has been of great help to the Architects of Puerto Rico and other countries.

He has been a sort of permanent delegate in Architectural, Municipal and Planning Congresses, all over the world. His work in this respect have been accepted officially and can be proven in the book just recently published by him and titled "Planning Around the World".

Gentlemen:

I understand that Mr. Santiago Iglesias, Jr., of the New York Chapter has been nominated for Fellowship in the American Institute of Architects by a group of his Puerto Rico confreres.

I have known Mr. Iglesias for some years and I am very happy to endorse his nomination.

At Mr. Iglesias' invitation, while President of the Institute, I visited Puerto Rico to aid him in his endeavors to start a school of Architecture at the University of Puerto Rico. During this visit I had occasion to tour the Island and observe the splendid work of planning for Puerto Rico that has been accomplished under his expert guidance. He is one of Puerto Rico's distinguished citizens and is well known as the leading planner, not only to the high public officials, but to the mayors and minor officials of the smaller villages.

His biography and some of the many papers prepared by him are contained in the book written by him "Planificando Arededor del Mundo".

His continued interest in the American Institute of Architects is attested by his attendance at each annual convention for many years.

I recommend most highly Mr. Santiago Iglesias, Jr. for advancement to Fellowship in the Institute.

Sincerely yours,

Gentlemen:

It gives me great pleasure to write in support of the ~~nomination~~ <sup>factural</sup> of my good friend, Santiago Iglesias, Jr., for advancement to Fellowship in the Institute. I understand his proposers have nominated him for his contributions to public service.

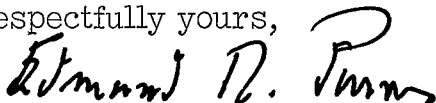

Although I have heard of his activities in that field, I am more conversant with the significant contributions he has made to the advancement of the profession in Puerto Rico and indeed throughout Latin America, and with his devoted and successful service to The American Institute of Architects.

Over the years Santiago Iglesias, Jr. has never failed, when asked to do so, to represent The American Institute of Architects at international conferences in the Caribbean and in Latin America. At his own expense, he has undertaken these missions and ably represented our organization. He is particularly well qualified for these assignments in view of his command of both Spanish and English, of his status as a city planner in Puerto Rico, and of his all around knowledge of the subjects that were discussed at those gatherings.

He has frequently attended the annual meetings of The American Institute of Architects and some of you may recall his active participation on those occasions. He has labored long and faithfully to improve architectural educational facilities in Puerto Rico and was defeated in his purpose only by factors which out-matched him in strength and in political power. He continues to strive for the betterment of his fellow professionals and for the advancement of The American Institute of Architects and its precepts.

I sincerely urge that Santiago Iglesias, Jr. be given favorable consideration.

Respectfully yours,

Edmund R. Purves, F.A.I.A.

Gentlemen:

I am advised that ten members of the New York Chapter have nominated Mr. Santiago Iglesias, Jr., AIA for advancement to Fellowship in the American Institute of Architects on the basis of his achievement in Public Service.

I have known Architect Iglesias for about 10 years.

As a leader of the Architects of Puerto Rico, "Chiago" has been a staunch supporter of the ethics and mandatory rules of the AIA and is highly respected by his colleagues of Puerto Rico.

He has always been - and still is - a leader in the development of a Master Plan for San Juan and other cities in Puerto Rico. He is a potent and dynamic voice for an architectural school in Puerto Rico. He served on a commission, with me, in a very competent and diligent manner for the establishment of an architectural school on the Island. He is the voice of the Puerto Rico Architects at our National AIA Conventions.

He gives, unselfishly, his time and money to visiting Architects from the U. S. A. and all parts of the world, acquaints them with his "Island" and is a very genial host.

This public relations, as an Architect, have been most beneficial to his colleagues in Puerto Rico.

Gentlemen:

I write to support the nomination of Mr. Santiago Iglesias, Jr., for Fellowship in Public Service to the A.I.A. He is a most dedicated person to the architectural profession and to the A.I.A.

In 1959 I visited Puerto Rico with members of the A.I.A. Education Committee and others to survey the possibilities for a School of Architecture there. Mr. Iglesias served as host to the visiting group. I was very much impressed not only by his gracious hospitality, but also by the amount of hard work over the years which he had done to upgrade the A.I.A. in the Island. You will have few nominees who are as deserving of recognition as Mr. Santiago Iglesias.

An Architect is advanced to Fellowship in recognition of exceptional ability or of exceptional service. The Jury of Fellows always tries to choose wisely and with discrimination, but it is limited in precise knowledge about the nominees.

To complete Nomination this form must be filled and returned before January 1st. Otherwise, no action will be taken at the forthcoming Jury meeting.

It is the opinion of the Jury of Fellows that a designer, however talented, should not be advanced to Fellowship if he possesses deficiencies of character which reflect discredit upon the profession; and that no architect, regardless of outstanding service, should be advanced if the buildings which he has designed are so notably inferior in architectural design as to reflect discredit upon the profession.

To help the Jury learn such aspects, which are not normally completely supplied through regular nomination procedure, fill in the lines below which in your opinion apply to Santiago Iglesias, Jr., A.I.A. and return this sheet in the addressed envelope provided.

- 1. Has he many friends who speak well of him? yes
- 2. Do they do much for his accomplishments? —
- 3. Would his ethics be acceptable in business? yes
- 4. What is your opinion of his character? favorable

*Mr. Iglesias is a public official, and is not directly engaged in the practice of architecture.*

Mr. Rene Octavio Ramirez, A.I.A.  
San Juan, Puerto Rico

An Architect is advanced to Fellowship in recognition of exceptional ability or of exceptional service. The Jury of Fellows always tries to choose wisely and with discrimination, but it is limited in precise knowledge about the nominees.

To complete Nomination this form must be filled and returned before January 1st. Otherwise, no action will be taken at the forthcoming Jury meeting.

It is the opinion of the Jury of Fellows that a designer, however talented, should not be advanced to Fellowship if he possesses deficiencies of character which reflect discredit upon the profession; and that no architect, regardless of outstanding service, should be advanced if the buildings which he has designed are so notably inferior in architectural design as to reflect discredit upon the profession.

To help the Jury learn such aspects, which are not normally completely supplied through regular nomination procedure, fill in the lines below which in your opinion apply to Santiago Iglesias, Jr., A.I.A. and return this sheet in the addressed envelope provided.

- 1. Has he many friends who speak well of him? Yes
- 2. Do they also vouch for his accomplishments? Yes
- 3. Would his ethics be acceptable in business? Yes
- 4. What is your opinion of his character? Good -

*I wish to bring to your attention that he has never practiced the architectural profession as such. He has always been a government employee.*
