ST. LOUIS CHAPTER  
THE AMERICAN INSTITUTE OF ARCHITECTS  
ST. LOUIS

Feb. 7, 1942

Mr. E.C. Kemper, Exec. Sec.  
American Inst. of Architects  
1741 New York Ave.  
Washington, D.C.

Dear Mr. Kemper:

The death of Mr. James P. Jamieson, F.A.I.A.,  
constitutes a great loss not only to the community  
in which he practiced, but to the profession at large.

I am sending you a copy of the Resolutions of  
regret recently adopted by the St. Louis Chapter, A.I.A.,  
which undoubtedly you will wish to include in the next  
issue of the OCTAGON.

Very truly yours,

Lawrence Hill  
President

JAMES P. JAMIESON

WASHINGTON, D. C.

In the death of James P. Jamieson on November 28, 1941, this Chapter lost one of its oldest and most highly esteemed members.

Born in Falkirk, Scotland, Mr. Jamieson began the study of architecture as an apprentice in an office in Scotland and at the age of seventeen came to the United States. After working in architectural offices in different cities, he entered the office of Cope & Stewardson, distinguished architect, of Philadelphia, with whom he was associated for many years. During this association, Mr. Jamieson was instrumental in the planning and in the designing of many notable buildings. Many of the buildings at Princeton and at Washington University were designed by his firm during this period, and so distinctive and beautiful were these buildings that their style, the College Gothic, became, for a period, the most favored style for hundreds of buildings of our American colleges.

From 1900 to 1912 as a partner of Cope & Stewardson, Mr. Jamieson was the St. Louis representative of this firm. From 1912 to 1918, he practiced under the name of James P. Jamieson, and in 1918 formed the partnership of Jamieson & Spearl which was continued up to the date of his death.

There has perhaps, never been a member of this Chapter who had a more elevating influence on the profession, than James P. Jamieson. A skilled draftsman, his work was

always marked with distinction and refinement; always a good builder, he likewise possessed a rare appreciation of materials and of their proper uses. The Edward Mallinckrodt residence in Westmoreland Place and the more recent buildings of Washington University and of the University of Missouri are examples of his skill as an architect; in them we may read the unerring soundness of his judgment and the sterling qualities of his character.

One of the oldest living Fellows of the Institute, he was an active member of this Chapter to the end of his long and eventful career.

Therefore, be it resolved:

That this Chapter spread upon the minutes, by these words of our high respect and affectionate memory;

And furthermore, that a copy of this resolution be forwarded to his family.

THE AMERICAN INSTITUTE OF ARCHITECTS  
THE OCTAGON, WASHINGTON, D. C.

February 9, 1942

Dear Mr. Hill:

Thank you very much for your letter of February 7 transmitting copy of resolution adopted by the St. Louis Chapter on the death of Mr. James P. Janusson, Fellow of The Institute.

We will not be able to publish the resolution as an obituary in THE OCTAGON but are indeed glad to have it for the historical records of The Institute.

Sincerely yours,

Asst. Executive Secretary

Mr. Lawrence Hill, President  
St. Louis Chapter, A.I.A.  
Washington University  
St. Louis, Missouri
