Providence, R. I.

Dear Sir:--

I herewith tender my resignation from the Institute.

Would say that I fully appreciate the benefits of membership and am heartily in sympathy with the work the Institute has done and the work outlined to be done, but owing to personal matters, the details of which need not be gone into and personal business taking me somewhat into other lines, although not to the entire exclusion of architecture, I think it best to sever the connection.

Very truly yours,

Otis Dockstader
