December 21, 1917

Dear Mr. Kemper-

I enclose application and cheque of R.H.Doane for Institute membership together with his power of attorney making Mr. C.Howard Walker his attorney for this particular purpose, since he himself is resident in Manila. He has been out in Manila for two years, and his contract I believe runs out in May, or thereabouts, and he is anxious to come on and get some war service, and wants to join the Institute. He is a high grade man, and apparently is doing a satisfactory job as consulting architect for the Government in Manila. Under the conditions it is difficult to handle the question of exhibits. His private practice, noted as of 1910 in New Jersey, was during his study period at Technology, by means of which he paid his way through. Since then he has had experience in a number of offices, the last one Mr.Walker's office, where he had charge of the designing work, under Mr.Walker's direct supervision of course. Some photographs of drawings with his signature as acting consulting architect in Manila are enclosed, and I wish you would present this matter to the Board of Examiners, and ask them to let me know at their earliest convenience whether they consider it essential to have other exhibits of work, or whether under the circumstances they would be willing to accept this exhibit as satisfactory. It would of course be a matter of considerable time to get any more, and he very much hoped that early action might be taken. In any case I assume his name could come before the meeting in January for action, contingent upon the usual notices, and the approval of the examining board. Anything you can do to expedite this application will be appreciated.

S. Parker

Very truly yours,

My dear Sir:

Acting for the Secretary. I am pleased to advise you of your election to membership in the American Institute of Architects, effective February 15, 1918.

You will receive under separate cover the Proceedings of the Fiftieth Convention; and the Year Book for 1917, which in addition to the membership records contains the official documents of the Institute relating to matters of professional practice.

The enclosed statement for dues should receive early attention, as the engrossed Certificate of Membership is not sent until the dues for the year have been paid, and election becomes void for non-payment within three months of this date.

This will also advise you of your assignment to the San Francisco Chapter, to whose Secretary a copy of this letter has been sent.

May I take this opportunity to say that the office of the Institute at the Octagon is for the service of every Institute member. Should the occasion arise, we will be glad to give you our best cooperation.

Very truly yours,

Executive Secretary.

Dear Sirs:

I beg to acknowledge your notification of my election to membership in the American Institute of Architects and express my appreciation of your action in this matter.

It would be my preference to be assigned to the Boston Chapter rather than the San Francisco Chapter if possible, inasmuch as my previous activities have been in that vicinity and my future work will probably be there also.

Enclosed please find \$45.00 in payment of my initiation fee and my dues for 1918.

Very truly yours,

Date 5-23-18 Subject From E. C. K. To Mr. Parker

Dear Mr. Parker:-

I enclose original letter of April 11th from Ralph H. Doane which is self explanatory.

He did not express a preference on the application so he was automatically assigned to San Francisco, in whose territory the Philippine Islands are located.

The By-laws do not meet a situation of this kind because Mr. Doane is not a resident in the Boston territory. It may be that he ought to continue in the San Francisco Chapter until he actually goes to Boston.

Please return with your instructions unless you prefer to write direct to Mr. Doane.

My dear Doane:-

I have been glad to have a hand, if only an official one, in getting you into the Institute.

In answer to your letter of April 11th and in explanation of your assignment to the San Francisco Chapter, I would say that that action was automatic as the Philippines are included in the territory of that Chapter. When you return to the United States, let me know and we will arrange to transfer you to the appropriate chapter, which will be governed by your residence, or your place of business, as you may prefer.

Looking forward to the pleasure of seeing you and learning of your experiences at Manila, I am,

Gentlemen:

Some time ago I asked that "The Octagon" be mailed to my home address, 2 Whitelawn Avenue, Milton, Mass., and since that time all my mail from The American Institute of Architects has been mailed to me there, and I notice that you seem to have dropped my business address altogether in any listing. Perhaps it is impracticable for you to maintain two mailing addresses for me, and in that case I much prefer that you use my business address, as I have been in business here in Boston for over twenty years. I have written to this effect before, but the address has not been changed. Will you please give this your attention, and oblige

Certainly Mr. Doane has had a most enviable career - graduating from M. I. T. in 1912, his early office training was with McKim, Mead & White in New York City. By reason of his skill as a designer by 1915 he was made Assistant Consulting Architect, then in 1917 Consulting Architect, to the Philippine Government where he designed and built between \$15,000,000 and \$20,000,000 of buildings. This was a remarkable achievement for a young man less than six years in practice, much on his own and with untrained helpers. Photographs, herewith, of the Governor's Palace, the Capitol and Post Office, all at Manila, P. I. attest his skill as a designer.

After service in the World War, he established his architectural practice in Boston, taught design at M. I. T., and joined the American Institute of Architects.

His practice has been varied as the extensive list demonstrates, for he is a designer of great versatility. The Milton Junior High School of which two photographs are shown was his departure in window arrangement from the stereotyped and ugly fenestration so often required by school building committees and even state laws. Mr. Doane demonstrated to the authorities that here was no loss of light but a distinct gain in grace for which we are all his debtors.

His famous Rindge Technical School at Cambridge, Mass., built in 1932, has much influenced modern school design. His orderly and attractive corridor coat-space and his top floor dining-room have now quite a following among school architects.

Mr. Doane was awarded the Harleston Parker Gold Medal in 1927 for the Motor Mart Garage. This was adjudged by his fellow architects as the best building in the Boston district erected at that time. In 1929 he was awarded a Certificate of Merit by Ray Lyman Wilbur, Secretary of the Interior and President of the Better Homes in America Association for the Sharon High School. He was also winner of three prizes in the Boston Herald Competition for best architecture in New England in August, 1930.

Since 1930 Mr. Doane has served as Architect for The Northfield Schools. He is also Supervising Architect for the well known St. Paul's School, Concord, New Hampshire, succeeding the late Charles Z. Klauder.

My dear Mrs. Doane:

Some time ago we received at this office a package of photographs of Mr. Ralph Harrington Doane's architectural work, which was to accompany a nomination to advance him to fellowship in The Institute.

Unhappily, Mr. Doane died before there was opportunity to act on the nomination.

As we feel sure you will want to have the photographs we are returning them to you by express and hope the package reaches you promptly and in good condition.

Sincerely yours,

Executive Secretary

Mrs. Ralph Harrington Doane

CONSULTING ARCHITECTS OF THE PHILIPPINES

Burnham, Daniel Hudson, b. Sept. 4, 1846. d. June 1, 1912.

Architect of the Rookery, Chicago; new Wanamaker stores, in Philadelphia and New York; Flat-Iron Building, New York; Chief architect and director of works, Chicago Exposition 1890-93.

We do not find the title of consulting architect in connection with his name in the books we consulted, however, he definitely did go to the Philippines in some capacity for planning the rebuilding and modernization of Manila and to plan the new summer capital of Baguio. He arrived in Manila December 7, 1904, and left there January 17, 1905. Although we have not found that title associated with him, undoubtedly he was serving in that capacity. ~~and his tenure~~ would thus be 1904-1905.

Fenhagen, George Corner, b. Dec. 7, 1884, d. Aug. 23, 1955.

✓ Doane, Ralph Harrington, b. Oct. 2, 1886, d. Nov. 6, 1941
