Dear Mr. Kemper:-

My son H. Griffith (Griff) Edwards has come to the end of the work on which he was employed over at College Park, Maryland and is seeking employment in any field of building work that may present itself for which he is prepared.

He has his four year degree from Georgia Tech in the School of Architecture, having taken a fine stand in his grades. Since graduating he has been employed on construction work and has exhibited capabilities in this field. I see no reason why he is not prepared to act as clerk of the works on the smaller projects of government work, because he has been intimate with estimating and oversight of construction for two years.

I am advising Griff to see you and will appreciate any courtesies you may show him in the above mentioned effort.

With kindest regards, I am
