ARCHITECTS' ROSTER QUESTIONNAIRE

TO EVERY ARCHITECT IN THE UNITED STATES AND ITS POSSESSIONS:

The Architects' Roster is maintained by The American Institute of Architects as a service to the profession as a whole and to agencies of the United States Government. Every registered architect, whether or not a member of The Institute, is eligible for inclusion in the Roster. The Institute maintains custody of the Roster, keeps it up to date and in good order for use. The Roster is available to any representative of the Government and to representatives of foreign governments in Washington. Reference may be made to The Architects' Roster in negotiations with government agencies and other interested parties. Experience with the Roster since its establishment in 1946 has shown its usefulness. Growing out of an earlier Register of architects qualified for public works, The Roster provides at The Octagon an accurate, current record of the qualifications and achievements of members of the profession. It allows a positive and helpful response to requests for factual information on architects, and in that way constitutes a service to the profession.

The American Institute of Architects assumes no responsibility for the accuracy of statements made in this Questionnaire. The obligation to maintain this record as a current description of an architectural firm rests with the firm, and supplementary record forms are available for this purpose.

PARTNERSHIPS SHOULD MAKE A JOINT RETURN ONLY.

Original and one copy to be mailed to THE ARCHITECTS' ROSTER, The American Institute of Architects, 1735 New York Avenue, N. W., Washington 6, D. C. One copy to be retained by the author.

Sixth Naval District
Charleston, South Carolina

Subj: Architect-Engineer Services - Ordnance and Related
Facilities.

Gentlemen:

In an effort to offer you improved architectural-engineering services, the firms of Simons and Lapham and Edwin A. Keeble Associates, Inc. have formed a Joint-Venture. This Joint-Venture will offer the advantages of an office located in the Charleston area, coupled with the Ordnance experience and background of the Keeble Associates, available for service in connection with Ordnance and Related Facility contracts. This would allow the work to be carried out with portions being accomplished at such locations as would best serve the project needs.

The qualifications of both firms in the form of brochures and questionnaires are now on file at your District Office.

By this letter, the undersigned request that consideration for selection as architect-engineers within your District be given to the Joint-Venture of Simons and Lapham and Edwin A. Keeble Associates, Inc., Architect-Engineers.

Yours very truly,
