The Architects' Roster  
The American Institute of Architects  
1735 New York Avenue, N. W.  
Washington 6, D. C.

Gentlemen:

Enclosed is Architects' Roster Questionnaire for the firm of BURNETT C. TURNER AND ASSOCIATES, Architects and Engineers. This firm is well qualified to render a complete architect-engineer service to Government agencies, and is currently doing so for the Corps of Engineers, U. S. Army.

The partners, however, continue to practice their respective professions as individuals and their experience records are therefore given separately.

Yours very truly,  
BURNETT C. TURNER AND ASSOCIATES

## ARCHITECTS' ROSTER QUESTIONNAIRE

### TO EVERY ARCHITECT IN THE UNITED STATES AND ITS POSSESSIONS:

The Architects' Roster is maintained by The American Institute of Architects as a service to the profession as a whole and to agencies of the United States Government. Every registered architect, whether or not a member of The Institute, is eligible for inclusion in the Roster. The Institute maintains custody of the Roster, keeps it up to date and in good order for use. The Roster is available to any representative of the Government and to representatives of foreign governments in Washington. Reference may be made to The Architects' Roster in negotiations with government agencies and other interested parties. Experience with the Roster since its establishment in 1946 has shown its usefulness. Growing out of an earlier Register of architects qualified for public works, The Roster provides at The Octagon an accurate, current record of the qualifications and achievements of members of the profession. It allows a positive and helpful response to requests for factual information on architects, and in that way constitutes a service to the profession.

The American Institute of Architects assumes no responsibility for the accuracy of statements made in this Questionnaire. The obligation to maintain this record as a current description of an architectural firm rests with the firm, and supplementary record forms are available for this purpose.
