NOMINATION FOR "ACHIEVEMENT IN SERVICE TO THE INSTITUTE".

NOMINEE'S FULL NAME - C. DAY WOODFORD

NOMINEE'S FIRM NAME - WOODFORD AND BERNARD.

Chairman - 7 Committees, So. California Chapter, 1948-1958  
Secretary - Southern California Chapter 1951 - 1952  
Vice-President - So. California Chapter - 1960  
President - Southern California Chapter - 1961

Because of the size and geographic dispersion of the Chapter, Mr. Woodford started his Presidency by developing and putting in operation, a new committee structure of master committees and a service panel. (A national document of the month last year)

He started a two-year job of completely rewriting the Chapter By Laws and developing a correlated form for Rules of the Board and to bring up-to-date documents that function more efficiently in the Chapter Structure.

He started a Past Presidents meeting to get this wealth of knowledge and experience back into Chapter activity.

He organized a meeting with the new Mayor of Los Angeles, the Planning Commission, and the Board of Building and Safety, and at this meeting obtained the Mayor's promise to appoint an Architects and Engineers Advisory Committee to each of these Commissions. (One has been appointed and actively working.)

Director of the Southern California Chapter, 1962 and Director of the California Council AIA 1951-1952-1960-1961-1962-

Chairman - Gov. Relations Committee, CCAIA 1956-1958. This Committee developed a long-range legislative program that put every State Legislator in direct personal contact with one or more Architects at a moment's notice. This system has given the Architect and the CCAIA Legislative Advocate a tool that has raised the recognition and influence of our profession in State Government so that the State is now seeking our advice and help, a remarkable change in attitude that represents a real accomplishment for the profession.

Member and Vice-Chairman - Architects & Engineers Conference Committee 1956-1962. This committee was organized to promote and campaign for a proposition on the ballot that would further the cause of private enterprise in California. This was a turning point in government recognition of the profession in the State of California.

American Institute of Architects - Architect and Gov't. Committee 1952-1954. Membership on this committee was due to a drive of the So. California Chapter to extend private practice in architecture in governmental projects on a national scale. Instigated and pushed by Mr. Woodford, while Secretary of the Chapter, and a member of this committee, this drive helped start a policy change toward increased activity and understanding of the problem of bureaucratic encroachment on our profession that was not current practice in the institute at that time.

Other Committees on which Mr. Woodford served:

Chairman - A I A. Subcommittee - Extension of Private Practice.  
A I A. - Special Consultant to the Board on State and Local Affairs.  
American Institute of Architects - Nominating Committee  
American Institute of Architects - AIA-EJC Com.  
American Institute of Architects - AIA Eng. Conference Committee

Mr. Woodford was instrumental in the formation of Architects and Engineers Committee of Los Angeles Chamber of Commerce 1952 with representation on the Chamber Board which gives design professions representation on Council of community leaders. Because of apparent lack of understanding of the contribution of Architects and Engineers to the field of industry, Mr. Woodford initiated the program of an Institute of Industrial Design as an educational program for industry and in turn a benefit to the profession. Mr. Woodford carried this through the newly formed Architects & Engineers Committee and this program was sponsored by, and produced by the Los Angeles Chamber of Commerce for four successful years.

In Design: Mr. Woodford has been a pioneer in the promotion of better design in Telephone Buildings and as evidence has received four Honor Awards in the last two years from the Bell System for excellence in Architecture at Low Cost. Located on top of a recently completed telephone buildings he designed a tower to hold microwave equipment; a structure normally an eye-sore, was turned into an interesting and beautiful addition to the Los Angeles skyline. On this same building he incorporated an interesting mural using communication equipment components. This mural received a special award from the Southern Calif. Chapter, AIA.

The American Institute of Architecture  
Jury of Fellows  
The Octagon  
1735 New York Avenue,  
Washington 6, D. C.

Gentlemen:

Mr. Richard Neutra, who is at present out of the city in following some of his projects abroad, has asked me to transmit to you his endorsement of the nomination of Mr. C. Day Woodford for the Fellowship in the Institute.

*Stamps*

Mr. Woodford had been in Mr. Neutra's personal office at Silverlake for four years and Mr. Neutra had an excellent opportunity then to see in him a man sincerely dedicated to his profession. The confidence which he gained in Mr. Woodford was increased as time went on, and he is happy to have the privilege of adding his support, toward the honor of Fellowship.

Sincerely yours,

Mrs. G. Serulnic  
Executive Secretary

Note: The Jury requests that copies of this form be filed only with the Jury.

On the CCAIA Governmental Relations Committee, Mr. Woodford developed a system whereby all state legislators can be contacted by an architect on very short notice. This system in itself has done more to advance the profession of architecture in California than all of the efforts of the CCAIA in the ten years prior to Mr. Woodford's service.

Gentlemen:

My first contact with Mr. Woodford was in the office of Parkinson & Parkinson in 1940. We were fellow workers for a period of approximately five years. His principal interest has always been producing good architecture and betterment of the profession.

✓  
C. Day Woodford has been a leader for the Architects in their state legislative programs since 1956 and has devoted countless hours combating 'Bureau' architecture locally, state wide and throughout the nation.

It is indeed a pleasure for me to recommend C. Day Woodford for your favorable consideration.

Very truly yours,

Wallace C. Bonsall, A.I.A.

B. I served with Architect Woodford as delegates to the California Council AIA during the time he was President of the Southern California Chapter. I have also served with Architect Woodford on the Executive Committee of the CCAIA, on which he is now the member-at-large. In addition, I have served with him on the CCAIA Architects and Engineers Committee.

During this period, I have learned to know Architect Woodford well and respect his enormous contribution, both to his own Chapter, the State organization, and the National AIA.

His sincerity and his careful, patient ability has served as a strong support to me and to all the members of the Executive Committee of the CCAIA. Not only has he devoted an extraordinary amount of his time to AIA activities, but his ability being so much above the ordinary, has made his contribution, in my opinion, more significant than almost any other California architect.

SEP 19 1962

NOMINATION FOR "ACHIEVEMENT IN SERVICE TO THE INSTITUTE".

NOMINEE'S FULL NAME - C. DAY WOODFORD

NOMINEE'S FIRM NAME - WOODFORD AND BERNARD.

Chairman - 7 Committees, So. California Chapter, 1948-1958  
Secretary - Southern California Chapter 1951 - 1952  
Vice-President - So. California Chapter - 1960  
President - Southern California Chapter - 1961

Because of the size and geographic dispersion of the Chapter, Mr. Woodford started his Presidency by developing and putting in operation, a new committee structure of master committees and a service panel. (A national document of the month last year)

He started a two-year job of completely rewriting the Chapter By Laws and developing a correlated form for Rules of the Board and to bring up-to-date documents that function more efficiently in the Chapter Structure.

He started a Past Presidents meeting to get this wealth of knowledge and experience back into Chapter activity.

He organized a meeting with the new Mayor of Los Angeles, the Planning Commission, and the Board of Building and Safety, and at this meeting obtained the Mayor's promise to appoint an Architects and Engineers Advisory Committee to each of these Commissions. (One has been appointed and actively working.)

Director of the Southern California Chapter, 1962 and Director of the California Council AIA 1951-1952-1960-1961-1962-

Chairman - Gov. Relations Committee, CCAIA 1956-1958. This Committee developed a long-range legislative program that put every State Legislator in direct personal contact with one or more Architects at a moment's notice. This system has given the Architect and the CCAIA Legislative Advocate a tool that has raised the recognition and influence of our profession in State Government so that the State is now seeking our advice and help, a remarkable change in attitude that represents a real accomplishment for the profession.

Member and Vice-Chairman - Architects & Engineers Conference Committee 1956-1962. This committee was organized to promote and campaign for a proposition on the ballot that would further the cause of private enterprise in California. This was a turning point in government recognition of the profession in the State of California.

American Institute of Architects - Architect and Gov't. Committee 1952-1954. Membership on this committee was due to a drive of the So. California Chapter to extend private practice in architecture in governmental projects on a national scale. Instigated and pushed by Mr. Woodford, while Secretary of the Chapter, and a member of this committee, this drive helped start a policy change toward increased activity and understanding of the problem of bureaucratic encroachment on our profession that was not current practice in the institute at that time.

Oct 10 1962

Other Committees on which Mr. Woodford served:

Chairman - A I A. Subcommittee - Extension of Private Practice.  
A I A. - Special Consultant to the Board on State and Local Affairs.  
American Institute of Architects - Nominating Committee  
American Institute of Architects - AIA-EJC Com.  
American Institute of Architects - AIA Eng. Conference Committee

Mr. Woodford was instrumental in the formation of Architects and Engineers Committee of Los Angeles Chamber of Commerce 1952 with representation on the Chamber Board which gives design professions representation on Council of community leaders. Because of apparent lack of understanding of the contribution of Architects and Engineers to the field of industry, Mr. Woodford initiated the program of an Institute of Industrial Design as an educational program for industry and in turn a benefit to the profession. Mr. Woodford carried this through the newly formed Architects & Engineers Committee and this program was sponsored by, and produced by the Los Angeles Chamber of Commerce for four successful years.

In Design: Mr. Woodford has been a pioneer in the promotion of better design in Telephone Buildings and as evidence has received four Honor Awards in the last two years from the Bell System for excellence in Architecture at Low Cost. Located on top of a recently completed telephone buildings he designed a tower to hold microwave equipment; a structure normally an eye-sore, was turned into an interesting and beautiful addition to the Los Angeles skyline. On this same building he incorporated an interesting mural using communication equipment components. This mural received a special award from the Southern Calif. Chapter, AIA.

THE AMERICAN INSTITUTE OF ARCHITECTS

The Octagon • 1735 New York Avenue, N.W. • Washington 6, D. C. • EXecutive 3-7050

CONFIDENTIAL

C. Day Woodford is being nominated to Fellowship in The American Institute of Architects in Service to the Institute

(state the category or categories)

The nomination lists the following activity as a basis for advancement:

- A. Advancement of the profession in California and service on national committees.

Activity

In the space below, please list any further details about this activity which you can provide on the basis of direct personal experience, and explain why you would consider it a significant accomplishment in the advancement of the profession of Architecture. Additional information may be submitted on an attached sheet, but the Jury prefers the material to be brief and pertinent.

B. During my presidency, I became very much aware of the effective work of Day Woodford in the Southern California Chapter. As I have observed it, it is my opinion that the high status which architects presently enjoy in California is substantially the result of the candidate's efforts. Under his leadership, they have achieved a model relationship with both state and municipal govt. Mr. Woodford's work on the national EJC Committee has been of a very high order.

Character Kindly check the one of the following statements which best describes the character of the nominee, or add a fourth in your own terms.

- [X] The nominee is a person of integrity.
[ ] The nominee has a good reputation.
[ ] The nominee's character is satisfactory.
[ ]

I have known the nominee for 6 years in the relationship of AIA member

Signed

Philip Will, Jr. (Handwritten signature)
