ARCHITECTS' ROSTER QUESTIONNAIRE

TO EVERY ARCHITECT IN THE UNITED STATES AND ITS POSSESSIONS:

The Architects' Roster is maintained by The American Institute of Architects as a service to the profession as a whole and to agencies of the United States Government. Every registered architect, whether or not a member of The Institute, is eligible for inclusion in the Roster. The Institute maintains custody of the Roster, keeps it up to date and in good order for use. The Roster is available to any representative of the Government and to representatives of foreign governments in Washington. Reference may be made to The Architects' Roster in negotiations with government agencies and other interested parties. Experience with the Roster since its establishment in 1946 has shown its usefulness. Growing out of an earlier Register of architects qualified for public works, The Roster provides at The Octagon an accurate, current record of the qualifications and achievements of members of the profession. It allows a positive and helpful response to requests for factual information on architects, and in that way constitutes a service to the profession.

The American Institute of Architects assumes no responsibility for the accuracy of statements made in this Questionnaire. The obligation to maintain this record as a current description of an architectural firm rests with the firm, and supplementary record forms are available for this purpose.

PARTNERSHIPS SHOULD MAKE A JOINT RETURN ONLY.

Original and one copy to be mailed to THE ARCHITECTS' ROSTER, The American Institute of Architects, 1735 New York Avenue, N. W., Washington 6, D. C. One copy to be retained by the author.

Attention: Chief of Engineering Division

Subject: Scheduling Architect-Engineer Services

Dear Sir:

Reference your letter dated January 29, 1952, above subject.

We note with considerable interest the recently published list of pending legislative authorization (H.R. 8120 passed House 8/12/52) for public works including numerous new projects involving A-E requirements, particularly the newly developing authorizations for your new work at Eielson AFB (Fairbanks) (\$17,179,000 USAF and \$4,737,000 Army), Naknek (\$4,756,000) and Elmendorf AFB (Anchorage) (\$37,155,000 USAF and \$20,257,000 Army, Ft. Richardson).

In connection with the cited new developments, may we refer you to our letter dated January 8, 1952 advising that our recent completion of or near completion of various sizeable projects places us in a very advantageous position to currently schedule your Architect-Engineer work under assurance of prompt completion and the availability of professional specialists who are experienced with military operational and logistic requirements and your definitive drawings and criteria. We welcome opportunities to be of every assistance to your organization and are prepared to establish thorough liaison and to collaborate in every regard with your office. We sincerely believe that our professional experience can assist in your desire to provide the best technical service in the most economical fashion.

The locations of the sites noted are especially advantageous to our organization. We have completed design work for Naval Air Facilities at Whidbey Island, Arlington, and Shelton, in Washington, and at Astoria, Oregon, and presently are engaged in similar work for Seattle. We have working association with Wohleb & Wohleb and Associates of Olympia (715 South Washington St., Telephone 3325) involving current work projects as well as potential future work for

the northwest area. Through our available organization we are prepared to provide organizational facilities suited to your specific needs including an adequate force in Alaska. Our Seattle local address is 2nd & Cherry Building (Room 322), Seattle 4, Wash., Telephone SENaca 7438.

Thanking you for your courtesies and timely consideration,
we are

Very respectfully,
