Dear Mr. Stacy-Judd:-

Permit me to acknowledge with gratification, and on behalf of the Secretary, your application for membership in The American Institute of Architects, received by reference from Mr. Cline, Secretary of the Southern California Chapter.

The application is complete in every respect except for the customary routine exhibits. These should consist of working drawings and photographs of two executed buildings which need not be specially prepared, may be taken from your office files, and will be carefully returned later.

By way of explanation it should be stated that all applications for Institute membership are acted upon at the quarterly meetings of the Board of Directors and Executive Committee. The next meeting is that of the Executive Committee, scheduled for March, and your application will be placed on the Agenda of that meeting, provided the exhibits mentioned are received promptly.

With regard to your check of \$30.00, which accompanied your application, we are returning the same herewith, with the request that you be good enough to send a new one for \$5.00 to cover the Initiation Fee, as your dues, upon election, will be pro-rated.

Cordially yours,

Executive Secretary.

Dear Sir:-

Under separate cover I am forwarding to you two sets of plans together with the two sets of photographs of the executed buildings.

I sincerely trust I have selected appropriate projects, but in a case of this nature, it seems difficult to decide.

One of the projects I selected is the La Jolla Beach & Yacht Club and the plans and details forwarded to you consist of a block plan of the entire scheme, and a structure known as the Esplanade Building. This building is now being used as the Club headquarters during the building operations of the lagoon, harbor, main building, and cottages. The entire project will run to over a million and a quarter, and the scheme is one over which I am very enthusiastic.

The other project provided an interesting architectural study in orientation and community grouping, inasmuch as it meant transferring the Theosophical Society from their cramped quarters in Hollywood to a one hundred and twenty-five acre site in the middle of the Ojai Valley, California. The group shown forms the nucleus of a theosophical community center.

As a personal favor would you be kind enough to reply to this letter stating whether, in your opinion, I have provided sufficient material for your purpose, or whether you would recommend my sending you other types of structures. For instance I have produced a few feature hotel structures, such as the Aztec Hotel, Monrovia, California, the first structure using the principles of ancient Mayan architecture, and "The Indian Village" Soboba Hot Springs, California, a group of buildings designed to perpetuate the historical side

of the American Indian tribes. My only reason for not forwarding these is that the themes, being a little extreme, might not receive approval.

I am enclosing a stamped addressed envelope for your reply, and if in your opinion my examples are not sufficiently worthy of consideration, I shall be only too happy to forward others of my works.

My Dear Mr.Kemper.

I very much regret your having to write a reminder to pay \$25.00. Annual dues. The mistake is in my office.

I have changed my office address, which kindly note, and after getting settled here I was called out of Los Angeles for a considerable time, and after your last letter I asked Miss Garson, my secretary, to forward a check to you. Since then Miss Garson has left my employ and the matter was entirely overlooked, for which I am very sorry.

Herewith I have pleasure in enclosing my check for \$25.00. as requested, and trust you will pardon me for the inconvenience I have put you to through my negligence.

Robert Stacy-Judd Services Scheduled

Funeral services for architect-explorer Robert Stacy-Judd, 90, noted for the use of a Mayan motif in many of his building designs, will be conducted at 10:30 a.m. Friday in the Wee Kirk o' the Heather, Forest Lawn Memorial Park, Glendale.

He died Monday in Parkwood Community Hospital, Canoga Park.

Stacy-Judd incorporated the Mayan motif, which he studied during two Yucatan expeditions, into such buildings as the Aztec Hotel in Monrovia, the First Baptist Church in Ventura and the Philosophical Research Center on Los Feliz Blvd.

He also designed the La Jolla Beach and Yacht Club, the North Hollywood Hospital and dozens of Tudor- and Spanish-style homes in the Los Angeles area. He helped with the plans for Howard Hughes' giant "Spruce Goose" seaplane during World War II.

Stacy-Judd was the author of "Atlantis, Mother of Empires," a book in which he linked the fabled lost continent with the Mayan people, and "Kabah," a book about his Yucatan expeditions.

Born in London, he studied architecture there and then served an apprenticeship of five years as an architect for the Great Northern Railroad in Britain before coming to the United States in 1913.

His only survivor is a niece, Mrs. Doris Bellingham of England.
