Gentlemen:

Enclosed are original and one copy of the Architects' Roster
Questionnaire, to be kept on file in your office.

As changes occur in our organization, we will send supplementary records.

Very truly yours,

Robert Law Weed

ARCHITECTS' ROSTER QUESTIONNAIRE

TO EVERY ARCHITECT IN THE UNITED STATES AND ITS POSSESSIONS:

The Architects' Roster is maintained by The American Institute of Architects as a service to the profession as a whole and to agencies of the United States Government. Every registered architect, whether or not a member of The Institute, is eligible for inclusion in the Roster. The Institute maintains custody of the Roster, keeps it up to date and in good order for use. The Roster is available to any representative of the Government and to representatives of foreign governments in Washington. Reference may be made to The Architects' Roster in negotiations with government agencies and other interested parties. Experience with the Roster since its establishment in 1946 has shown its usefulness. Growing out of an earlier Register of architects qualified for public works, The Roster provides at The Octagon an accurate, current record of the qualifications and achievements of members of the profession. It allows a positive and helpful response to requests for factual information on architects, and in that way constitutes a service to the profession.

The American Institute of Architects assumes no responsibility for the accuracy of statements made in this Questionnaire. The obligation to maintain this record as a current description of an architectural firm rests with the firm, and supplementary record forms are available for this purpose.

PARTNERSHIPS SHOULD MAKE A JOINT RETURN ONLY.

Original and one copy to be mailed to THE ARCHITECTS' ROSTER, The American Institute of Architects, 1735 New York Avenue, N. W., Washington 6, D. C. One copy to be retained by the author.

5 REMARKS CONCERNING QUALIFICATIONS OF FIRM

(This space is best used to present qualifying information such as number of employees, amount of office space, financial information and other information presumed of interest to a prospective client. Append extra sheet or use back of this form, if necessary.)

The firm at the present time consists of five registered architects, three registered engineers and several specialists in allied fields. Employees number 27. It occupies its own offices in a new cooperative professional building. The volume of work put under construction runs from five to seven million dollars each year; in addition the firm has done a large amount of work for Air Force in connection with base master planning and development plans. The firm is particularly well qualified by experience and background for work in the tropics and sub-tropics, having performed in the southeastern United States, Cuba, Colombia, Jamaica, Puerto Rico and the Netherlands Antilles. The firm carries sufficient bank balances to handle a large production payroll (see attached references -- financial included). Clients of the firm include local government authorities, United States Air Force, Corps of Engineers, Bureau of Yards & Docks - Navy, and prominent United States Corporations.
